## PRESS RELEASE

The United States Congress proceeded today with the approval of the NICA-ACT Law Initiative. Last year in the midst of the Presidential Electoral Campaign, the United States Congress discussed and approved the same Law Initiative.

The Government of Reconciliation and National Unity has expressed at different times, and with the same firmness, our position regarding this irrational, offensive and harmful action to Nicaraguans' Human Rights: We consider this Law Initiative a violation to the Sovereignty of Nicaragua, and a denial of all Political, Social, Cultural, and Economic Processes

that are developed to improve the Life of everyone, and to promote Joy, Harmony and Wellbeing in our Blessed, United and Forever Free Homeland.

The Government of Reconciliation and National Unity reiterates our Conviction against these retrograde, interfering, and disrespectful positions on the part of certain United States Members of Congress, who have not yet overcome conflictive positions and interests against the Will and the Tranquility of all Peoples.

Once again, we reiterate to the Nicaraguan People, to the Nicaraguan Families, to the Youth, and to the International Community, our invariable Commitment to Democracy and the Paths of Harmony, Encounter, Understanding, Security and Prosperity, which

all Nicaraguans follow, in Unity and Hope,  
in Faith and Trust, with the Grace, and at  
the Hand of God.
